SUBJECT INDEX

- | | | | |
|--|--|-----------------------------|-------------------|
| 1/f fluctuation | 193 | Cortisol | 221 |
| 5-hydroxy-indoleacetic acid | 43 | Cosinor method | 321 |
| Abulatory monitoring | 239 | Cosmetology | 69 |
| Achaea janata | 419 | Cycle | 245 |
| Actigraphy | 125 | Daily variations | 179 |
| Activated thromboplastin time | 203 | Data acquisition | 341 |
| Activity | 35 | Data processing | 341 |
| Activity-sleep cycle | 125 | Depression | 5, 165, 305 |
| Adenylate cyclase | 107 | Dermatology | 69 |
| Adjustment | 227 | Desynchronisation | 305 |
| Age | 227, 245 | Electrophoresis | 433 |
| Age at menarche | 251 | Entrainment | 383, 419 |
| Age-dependency | 107 | Enzyme activity | 99 |
| Aging | 291 | Enzyme affinity | 99 |
| Aging | 445 | Equilibrium binding studies | 235 |
| Aldosterone | 43 | Essential hypertension | 321 |
| Alpha-1-antitrypsin | 203 | Euglena | 99 |
| Alpha-2-macroglobulin | 203 | Exocrine pancreas | 377 |
| Aminoglycoside antibiotics | 393 | Face fly | 413 |
| Antithrombin III | 203 | Factors V and VIII | 203 |
| Arterio-venous difference | 283 | Feeding rhythm | 419 |
| Atrial natriuretic factor | 51 | Fibrogen | 203 |
| Auditory brainstem response | 393 | Filtering | 341 |
| Behavioural | 291 | Fischer rats | 113 |
| Benzodiazepine | 35 | Food anticipation | 383 |
| Beta-endorphin | 135 | Food restriction | 383 |
| Binding | 277 | Food selection | 283 |
| Biological rhythms | 467 | Forskolin | 107 |
| Blood | 445 | Freshwater | 93 |
| Blood coagulation | 203 | Gender | 125 |
| Blood pressure | 51, 135, 321 | Genetics | 371 |
| Body | 93 | Gentamicin | 393 |
| Body temperature | 135, 179 | Giardiasis | 329 |
| Body temperature marker rhythm | 393 | Glucose | 283 |
| Breast | 239 | Growing rats | 43 |
| Breast diagnosis | 239 | Growth | 93 |
| Breast temperature | 239 | Growth hormone | 217 |
| Calcium calmodulin | 353 | Hamster | 35 |
| Caloric restriction | 113 | Headache | 467 |
| Caloric restriction | 291 | Heart rate | 59, 135, 305, 321 |
| Carbachol | 277 | Hemodynamics | 317 |
| Chronic renal disease | 321 | Hemolymph sugar | 413 |
| Chronobiology | 143, 165, 239, 321, 341 | Hemolymph trehalose | 413 |
| Chronomorphology | 377 | History of research | 179 |
| Circadian 135, 217, 221, 353, 433 | | House sparrow | 187 |
| Circadian clocks | 5 | Human birth rates | 171 |
| Circadian efficiency | 59 | Human cognitive performance | 143 |
| Circadian enzyme rhythms | 25 | Hypothalamus | 43 |
| Circadian rhythm | 35, 99, 125, 135, 143, 187, 193, 203, 277, 291, 305, 317, 321, 341, 413, 445 | In vivo studies | 403 |
| Circadian rhythms | 43, 69, 113, 179, 227, 371, 377, 383, 425 | Industrial accidents | 155 |
| Circadian studies | 235 | Insulin | 283 |
| Circadian susceptibility-resistance rhythm | 393 | Interval therapy | 317 |
| Circannual | 245, 251, 329 | Liposomes | 69 |
| Clock-controlled transcription | 25 | Low and high protein diets | 43 |
| Common migraine | 467 | Mania | 5 |
| Conformational oscillators | 25 | Masking | 425 |
| Constant light | 383 | Membranes | 353 |
| Constant routines | 425 | Menarche | 251 |
| Continuous | 93 | Metabolic programmes | 25 |
| Continuous darkness | 413 | Metabolism | 291 |
| Continuous light | 413 | Mice | 371 |
| Coronary heart disease | 317 | Month of birth | 251 |
| Corpus allatum | 419 | Monthly rates | 171 |
| Corticosterone | 43 | Morningness-eveningness | 305 |

Subject Index

Morphometry	377	Sampling	341
Multiple component analysis	217	Sampling robots	235
Musca autumnalis	413	Seasonal	245
Muscarinic receptors	277	Seasonality of menarche	251
Muscle tone	193	Serotonin	43
		Shift rota	155
N-terminal prohormone peptides	51	Shift work	155, 227
NAD kinase	99	Short stature	217, 221
NADP phosphatase	99	Single diet	283
Neurobehaviour	193	Size	93
Nitrates	317	Sleep movement	125
Noctosome R skin aspect s	69	Social dislocation	5
Normalization	171	Social zeitgebers	5
Nude	371	Spectral analysis	193
		Spontaneous locomotor activity	193
Oscillation	99	Standard stature	217, 221
Ototoxicity	393	Stimulate	93
		Synchronizers	113
Parasitic infection	329	Temperature	59, 291, 425
Pediatrics	221	Temporal pattern	283
Periodicity	251	Testosterone	245
Phase response	353	Thermobiology	239
Phase-advance	165	Thrombin time	203
Photoperiod	93, 187	Thymus	371
Photorefractoriness	187	Time-qualified-reference value	125
Physiological	291	Translational control	353
Pineal	93	Trehalose	413
Pirenzepine	277	Triazolam	35
Platelet aggregation	203	Trichoroethylene	193
Prawn	93	Tryptophan	43, 283
Precocene	419		
Prevention	329	Ultradian	217
Protein	433	Ultradian rhythms	353
Protein phosphorylation	353	Urine	425, 433, 445
Protein synthesis	353		
Prothrombin time	203	VO2 max	59
Public health education	329	Ventilation	135
		Vital signs	445
REM sleep	165	Vital statistics	171
Rat	203	Vitamin K 2,3epoxide reductase	403
Rat forebrain	277	Vitamin K reductase	403
Rat heart	107		
Rats	393, 403	Warfarin	403
Rhythm	393, 433	Weight	93
Rhythmicity	107	Work injury	155
Rhythmometry	329
